***Allowable Subject Matter***

***Status of the Claims***

This action is in response to papers filed 2 November 2005 in which claim 21 was amended and a Terminal Disclaimer were submitted. The amendments and Terminal Disclaimer have been thoroughly reviewed and entered.

The previous rejections in the Office Action dated 4 March 2005 are withdrawn in view of the amendments and Terminal Disclaimer.

Claims 21-25 and 27-32 are in condition for allowance.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The claims are drawn to a method for sequencing a heterogeneous population of DNA molecules, each of which is present in a unique amount. The method requires repeated cycles of ligating then cleaving mass-labeled probes having a known sequence. The sequence of the DNA molecules is determined by comparing the quantity of cleaved probes in each cycle to the unique amount of DNA present.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Claims 21-25 and 27-32 are allowed.
